At a time when library usage is at its highest ever, the state has cut its funding for libraries by 50%. This funding is vital to help libraries provide services and materials and to support the delivery of materials from other libraries. Today Illinois libraries are participating in ***Snapshot: One Day in the Life of Your Library*** by collecting comments and photographs from events in a typical library day. The results will offer proof that libraries consistently provide invaluable services to our community.

Help us demonstrate how important your library is. Tell us why you came to the library today:
